September 28, 2017

Edmond J. Theobald
Town Supervisor
301 Brooklea Drive
Fayetteville, NY 13066

Dear Supervisor Theobald,

We are writing to request a speed limit change on State Route 92 at the intersection of Brinan Fields Run / Austin DR S. Just northwest the intersection, the speed limit changes from 40 miles an hour to 50 miles an hour so that the speed limit at the intersection is 50 miles an hour. We are proposing that the increase be moved southeast an additional 2000 feet, so that the speed limit would be 40 miles an hour through the new residential area.

As you may know, Brinan Fields is a recently constructed neighborhood of sixty-three single-family homes. Brinan Fields Run is the only entrance to both our neighborhood and to Eastern Hills Bible Church. Another new neighborhood, Austin Meadows, with a planned eighty home sites, is still under construction on the other side of the four-way intersection, adding even more families and more traffic.

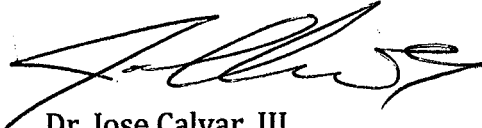

During the past few weeks, there have been several traffic accidents in the immediate area. One of those accidents, on September 3, 2017, occurred when a vehicle that was turning into the neighborhood was struck by an oncoming car. In total, four cars were involved. There were multiple injuries and traffic was blocked for at least an hour. The change in speed limit encourages cars heading toward Cazenovia to accelerate through this busy residential area, while residents are slowing down to turn.

The safety of our children must be a priority. School buses are turning in and out of the neighborhood during peak traffic hours, especially in the morning. Brinan Fields has about thirty elementary students and about 15 middle and high school students riding the bus to school every day, plus many other children who are riding in cars. Our neighborhood also has many preschool children. Additionally, Eastern Hills Bible Church, located at the same intersection, houses a preschool that serves 90 children.

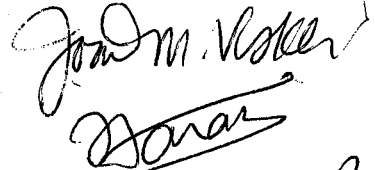

Given the recent growth of the area, we feel the 50 miles per hour speed limit is no longer appropriate or safe, which is why, with the support of our community, we are requesting a change to 40 miles per hour.

Thank you for your time.

Sincerely,

Dr. Jose Calvar, III

TOWN OF MANLIUS
SUPERVISOR'S OFFICE

Dear Mr. Theobald:

Enclosed please find Map File No. 1804, sheet 5, showing proposed hydrant #14336 in the existing Mycenae Water District for your review.

If the above hydrant meets with your approval, we request that the Town Board duly approve it. Sign and insert date on the enclosed three (3) Applications for Fire Hydrants. Return two (2) copies to our office and retain one copy for your files.

The Developer, Oot Brothers, Inc., will pay for the hydrant installation in conjunction with the 8" water main extension. The Town will be notified when the hydrant is in service, and they will be billed the annual hydrant maintenance rate, which is currently \$71.61 per hydrant per annum.

Thank you for your attention to this matter.

Very truly yours,
OCWA

Patrick Sherlock
Water Systems Construction Engineer
