Town of Manlius • Environmental Council

301 Brooklea Drive, Fayetteville, New York 13066 637-8815

The Executive Committee of the Town of Manlius Environmental Council (TMEC) has been meeting in October, November and December.

After reviewing the TMEC files, a work plan for records storage has been developed. Each box contains a detailed list of the contents. All archival work and record organization is being done following guidelines of the State Archives and Records Administration (SARA).

Archival storage includes the photographs taken during the aerial flyovers in 1974, 1980, 1984 and 1989 that provide a permanent record of land use in the Town of Manlius. The collection also includes photographs of storm results in 1972 and 1975.

A slide program "A Rocky Land Shaped by Water" developed by the TMEC is being made available to interested groups.

A new explanatory letter was written and the booklet "Today's Environment – Tomorrow's Hopes" describing the development of the Town of Manlius and its environmental challenges written by TMEC members was distributed to town officials as well as officials in the three villages of Manlius, Fayetteville and Minoa.

January 22, 2018

John D. Loosmann, Chair
